

# Bibash Poudel

## Creative Developer — Full-Stack Web

Sindhuli, Nepal · UTC+05:45 · Open to work

[bibashpoudel@email.com](mailto:bibashpoudel@email.com) · [github.com/beebus-builds](https://github.com/beebus-builds) · [linkedin.com/in/bibashpoudel](https://linkedin.com/in/bibashpoudel)

---

### SUMMARY

Full-stack developer working across Next.js, TypeScript and WordPress — interfaces with intent, backends that hold their weight, and the unglamorous plumbing that keeps both honest. Started in WordPress and PHP, now shipping everything from encrypted voting platforms to custom themes.

---

### EXPERIENCE

#### Web Developer — Smartsites Nepal

Professional experience · 1 year

- Built and maintained client websites in WordPress and PHP, including custom themes and plugins.
- Worked on WooCommerce stores and multilingual setups, keeping them fast and reliable.
- Shipped responsive front-ends and handled day-to-day site maintenance and fixes.

---

### SELECTED PROJECTS

#### iVote — Secure Online Voting (2025)

Next.js, TypeScript, Python, FastAPI, PostgreSQL · [vote-teal.vercel.app](https://vote-teal.vercel.app)

- University election platform with end-to-end encrypted voting (Paillier homomorphic encryption).
- Face verification with blink-based liveness detection; keys erased after tallying.

#### Pharma Connect (2024)

TypeScript, Next.js · [pharmaconnectnepal.vercel.app](https://pharmaconnectnepal.vercel.app)

- Connects patients to their nearest pharmacies; designed for low-bandwidth users.

#### Nico Paz — Custom WordPress Theme (2025)

PHP, WordPress, Tailwind CSS, WooCommerce, Polylang

- Bilingual fan-site theme with bento gallery, dark mode and WooCommerce support.

---

### SKILLS

- **Languages & frameworks:** TypeScript, JavaScript, PHP, Next.js, React, Node.js, Python.
- **Front-end:** Tailwind CSS, Framer Motion, design systems, accessibility.
- **Data & infra:** PostgreSQL, Neon, Vercel, serverless & edge, CI pipelines.
- **CMS:** WordPress, WooCommerce, custom themes & plugins, Polylang.
- **3D & realtime:** Three.js, React Three Fiber, WebGL shaders.

---

### EDUCATION

#### Bachelor of Information Technology (BIT) — Bhaktapur Multiple Campus

Expected completion: end of 2026
